

# Pre-Approved Paint Colors

May 1, 2013

## Lafayette Park Homeowners Association

6921-A Lafayette Park Dr., Annandale, VA 22003

email: [info@lafayettepark.us](mailto:info@lafayettepark.us)

The Association's pre-approved paint colors are listed below. Purchase custom-mixed, quality brand paint at any paint or home improvement store. Provide store staff with the following information: type of paint (exterior semi-gloss), paint formula (Sherwin-Williams, McCormick, Duron), and paint color name and ID number. Each manufacturer's paint colors differ slightly; paint color accuracy is your responsibility. *Some retail paint stores provide Lafayette Park residents/owners with a 10% or more year-round discount on exterior and interior paints and supplies. Those stores also run specials and have preferred customer benefits programs.*

**PAINT SWATCHES.** Choose a paint color that complements your brick, roof and the colors of your next door neighbors' houses. To take home paper paint swatches, [take this flyer](#) to a Duron or Sherwin-Williams paint store. They carry free swatches of most of the Pre-Approved Association Paint Colors in Duron/Sherwin-Williams paint formulas. You may also contact the Association's Board of Directors at [info@lafayettepark.us](mailto:info@lafayettepark.us) and ask to review the binder of approved paint colors.

**PAINT CODES: D = Duron, M = McCormick, SW = Sherwin-Williams "crossover" colors**  
**(similar matching colors but with different names than the ones on the approved list below)**

### TRIM COLORS (exterior semi-gloss paint)

Trim also includes gutters, downspout and vinyl wrapping around replacement windows.

**Carolina Slate** (M #226, D #999, SW #7625)

**BLACK** Tricorn Black (D #6258, SW #6258)

### PAINTING GUIDELINES

- **Doors.** Front and storm doors must match the trim or shutters. Both doors may be the same or different colors, with no more than one color per door. Homeowners are encouraged to paint older aluminum storm doors to match the trim or shutter color. Although a storm door is not required, if you do purchase one, install the "full view glass" style.
- **Bay Window Cover.** Clean and prime the metal window cover and carefully apply a COPPER METAL PAINT (e.g., Home Depot's copper metal spray paint). Copper is the only acceptable color.
- **Bricks, etc.** You may not paint bricks, stoops, sidewalks and foundations, nor cover them with any materials including vinyl.
- **Railings, Fencing & Decks.** Metal railings must be painted gloss black, and wood fencing, decks and wood railings may be stained (not painted), if desired, with clear or the natural color of the wood.
